

Digital transformation

Digital maturity assessment

Our senior Financial Services leaders at NextWave have used their extensive industry expertise and market insight, to develop a digital maturity model.

The model can be used by Financial Institutions to assess their digital capabilities and benchmark these against the industry. The model focusses on the areas which are the most influential in driving digital transformation.

The results of the assessment can be used to develop a transformation plan for a specific capability or function or for the wider organisation.

YOUR DIGITAL MATURITY ASSESSMENT

Features

- Digital maturity assessment via an on-line questionnaire of 50-60 questions.
- Five key capabilities covered.
- An individual report with your scores, industry comparisons and recommendations.
- Option of a 2 hour follow up workshop to discuss your results and recommendations.
- Free of charge to invited participants.

Maturity scores for each capability
